

No Lock In Contract ADSL 2+ Service Application

Why you should choose Aussie Broadband over our competitors ?

SUPERFAST INTERNET SPEEDS

Aussie Broadband ADSL2+ connections are super fast with speeds of up to 20 megabit depending on your distance from the telephone exchange. The ADSL2+ technology is currently one of the fastest internet connections available in Australia, we also build and maintain our own ADSL2+ equipment and network, which means you get great value for money with your connection from experts in this technology.

NO LOCK-IN CONTRACT *

Aussie Broadband is one of the only Internet Service Providers in Australia to provide its customers with a no lock in contract connection.

Many other providers will lock you in to a long term contract where you may need to pay hundreds or even thousands of dollars to get out of your contract should you decide to leave early.

BUNDLE YOUR HOME PHONE & SAVE

Aussie Broadband now offers Home Phones with the advantage of Single Bill and you will receive a discount off your monthly Broadband plan. Home Phone rental is \$29.95 with 18c local calls, STD calls capped at \$2 for up to 3 hours and calls to mobiles also capped at \$2 for up to 20 minutes. See our website for full details.

Competitive Data Plans

Aussie Broadband ADSL2+ plans and pricing are some of the cheapest in Australia with more data for your dollar, and most importantly only download data counts against your monthly data limit. Our excess data charges is one of the smallest in Australia at only 2.0 cents per megabit should you choose not to have a shaped connection.

Discounted Installation Charges

Aussie Broadband has heavily discounted its ADSL2+ line activation and modem charges to allow you to get online with minimum outlay. You own the equipment from day one and we also provide the warranty service if you purchased your Modem / Router from Aussie.

FREE HELP DESK SUPPORT

Aussie Broadband provides its own help desk support giving all of our customers fast and free unlimited help desk support so you can be confident that if you have an issue, you will be able to speak to a help desk technician when you need one. Best of all you are speaking to an Australian, based in Australia. We are a regionally based company who live and work in our communities, our head office isn't in one of the big capital cities, and we specialise in providing broadband internet services to regional Australia, which means we understand your needs, and we are 100% Australian owned.

Service Description

Any transmission speeds referred to by us refer to the maximum theoretical speed achievable with the Service under ideal conditions, and you acknowledge that actual speeds may be different than the theoretical speeds. Speeds may vary for reasons which include but are not limited to: Third Party Supplier network congestion, Third Party Supplier line interference, Internet Congestion, Contention ratios and errors in the configuration of your equipment.

The Service is provided on an "as is" basis and we cannot guarantee the provision of the Service to you where the service is reliant on a Third Party Supplier.

No service level guarantee is provided for this Service. We will use our best endeavours to provide timely restoration of service, however no guarantee is provided.

No Liability

The Service can only be provided through a telephone line where the exchange for that line is enabled for ADSL or ADSL 2+ and the line is within the coverage area.

Interference with the Service

You agree that you will:

- Not interfere with normal operation of the service or any facility, or make either unsafe.
- Allow any Third Party Suppliers or Aussie Broadband safe access to the customer premises if required.

- Ensure that our Third Party Suppliers or Aussie Broadband are provided with sufficient and timely access to the customer premises to enable our Third Party Supplier or Aussie Broadband to provide the service.

- If you do not have control or have access to the premises in which the service is delivered, you must:

- Procure for our Third Party Suppliers and Aussie Broadband all such access to the premises as may be required.

- Indemnify our Third Party Supplier and Aussie Broadband against any claim by the owner or occupier of the service premises, or any other person, in relation to the entry of those premises.

Acceptable Use Policy

You agree not to use your access for illegal purposes and to conduct yourself in a responsible and considerate manner, and acknowledge that cracking, hacking, crashing, spamming, transmission or storage of copyright infringing or any data which would contravene Australian laws relating to the production and distribution of pornographic material or distribution of virus is forbidden, as is unauthorised access to system areas and information on the Aussie Broadband network or any systems connected to the Aussie Broadband network
